

# **Anti-Camp-Action-Days in Blankenburg**

## **29.9. - 1.10.**

We, as a mixed group of human rights activists, refugees and non refugees, decided to meet beside the Camp Blankenburg with the refugees inhabitants of the Camp Blankenburg to show our solidarity to you and discuss about the situation and living in the camp Blankenburg.

According to out of standard and inhuman living conditions there, we want to protest all together against all the limitations of your/our obligatory life in the camp. Our demands are closing the camps and give all refugees the chance to decide about their own way of life.

Some of our major activities during the action days :

- **Camping beside the lake, in front of the camp for three days**
- **Different workshops about refugees rights**
- **Meetings with discussion about strategies of resistance and ways of self-organizing**
- **Playing music and watching movies together**
- **Fun and Circus for all**
- **Playing games together like volleyball or football**
- **Demonstration for the rights of refugees on Sat. 30.09.06 in the city of Oldenburg**

All the people who want to know more or express themselves are welcome. We invite you all to these action for being together, sharing ideas and information, showing our presence and fighting for all refugees rights.
