The lager Blankenburg is 5km away from Oldenburg city. Refugees who asked for asylum have to live there. In those “Lager” Refugees and migrants are exposed to inhuman and conflictive situations. They have almost no rights and are isolated and stigmatised from society. They get totally reduces medical supply, bad canteen-food and underlie to the “Residenzpflicht” (that means, that they can’t leave their district without a permission).

The purpose of Lager is to have a permanent control over the people, to humilliate them, to take away any perspective for their lives and so to force them to leave the country.

With the “anti-Lager-action-days” we want to show the inhuman conditions in the Lager Blankenburg and the repressive migration policy which is characterized through the “lager-system” to the public.
